Coaches Comment

This is a mileage guide for 18 weeks for your marathon training. The Tuesday and Thursday RWT run sessions, I will work them out as we go along. Try and stay with the program and get close to the mileage. Everything you do you will benefit from. We begin with 4days per week, then move up to 5 with the 1 session per day. If you miss a day, don't play catch up, just let it go. Monday and Fridays are rest days. I'm from old school, you train for a marathon ,you run. This day and age a lot of athletes cross train. I would be carefull and pick your days for cross training. You need your recovery time. Best way, listen to your body. Stay hydrated, eat well and get good sleep time for your recovery.
