Coaches Comment

This is a mileage guide for 18 weeks for your marathon training. I will work out the Tuesday and Thursday RWT run sessions as we go along. Try and stay with the program and get close to the mileage. Everything you do you will benefit from. We begin with 5 days per week, then move up to 6 with the 1 session per day. If you miss a day, don't play catch up, just let it go. Friday is complete rest day. I am old school, you train for a marathon, you run. These days a lot of athletes cross train. I would be careful and choose your days for cross training, you need your recovery time. Best way is to listen to your body. Stay hydrated, eat well and get good sleep for your recovery.
